Features

Deliver Clear and Compelling Messaging

Deliver messaging with continuous visibility in semi-outdoor and outdoor environments, and reduce operational burden through the highly durable and convenient all-in-one OMH Series displays.

Foster Brilliant Presentation for All

Provide uninterrupted visibility against natural and ambient lighting conditions with high brightness and against display blindness from polarized sunglasses with circular polarizing technology.

Eliminate Unnecessary Distractions

Deliver content without disrupting the customer experience. A high-TNI panel prevents blackening of the screen from sunlight exposure and a fan-less design ensures minimal noise emission.

Streamline Operational Efficiency

The embedded MagicInfo Player S4, backed by the powerful TIZEN operating system, boosts the displays overall performance, allows for painless content management and ensures seamless content transition and playback.

Leverage Advanced Connectivity

Through dedicated input (DP, HDMI, HDBT and USB), external control (RJ45, RS232C and IR) and network (RJ45 LAN) ports, users can connect multiple compatible sources without complication.

Optimize Display Orientation

With pivot mode, users can install the OMH Series displays in both a landscape or portrait orientation to suit environmental and usage needs.
