Opis produktu

Monitor reklamowy Samsung OM46N-D

Features

Present bright content on a dual-display

The OMN-D Series features a double-sided screen, with each side adjusted for the environments in which it is utilized. The window-facing side’s 3000nit brightness helps maintain picture integrity regardless of sunlight, while the in-store side features 1000nit, delivering information clearly.

Modernize space with flexible design

The OMN-D Series can be easily mounted on a stand or hung from a ceiling, giving retailers more options for positioning. The smart design creates a clean look and offers flexibility in how valuable floor space is designed and utilized.

Maximize operational efficiency

The OMN-D Series frees up space, offering retailers more room to market themselves to potential customers on both sides with one display. The display is easily activated with one electric power cord and one LAN cable, drastically reducing cord clutter and increasing energy efficiency.

Streamline content management

The OMN Series’ embedded MagicINFO Player S6, backed by the powerful TIZEN operating system, boosts the display’s overall performance, allowing for easy content management and ensuring seamless content transition and playback.

Durable Performance

With IP5X-validated dust protection and a proprietary 3-step process to prevent damage from overheating, OMN series displays stand the test of time.

Clean Cable Configuration

Connectivity cover keeps connections clean and organized. Embedded Wi-Fi also allows for updates without the need for any additional messy cables.

* Connectivity cover is only included at the top of the display and is not available on the sides.

* Product specification may vary by size and region.

Award-winning digital signage solution

The Samsung OMN and OMN-D Series has been recognized by leading digital signage industry awards. The displays received the AV Display Innovation of the Year from the AV News Awards and Best All-Weather Display from the TNT Awards for smart design, flawless clarity and brightness.

AV Display Innovation of the Year“Samsung OMN and OMN-D series, its brand new semi-outdoor displays available in 46 and 55-inch, are designed with a storefront window display in mind and capture viewers’ minds with comprehensive innovation. Brilliant, vibrant images with superior picture quality, high brightness....”

Displays: All Weather Displays“Samsung’s OMN Series not only delivers an image with flawless clarity but is also designed to maintain superior picture quality even when exposed to direct sunlight. With slim and sleek design, the OMN series is compatible with any window layout and can complement the style of any brand.”
